Re: Employment Verification — Ms. Maya Patel (DOB April 12, 1996)

To Whom It May Concern:

This letter confirms the employment of Ms. Maya Patel with Northstar Systems LLC ("Northstar"), a Delaware limited liability company headquartered in Atlanta, Georgia. Northstar builds logistics analytics software for freight carriers and third-party logistics providers and currently employs 214 people in the United States.

Ms. Patel began providing services to Northstar as an independent contractor on January 15, 2024, engaged through a professional services agreement to support the launch of our event-ingestion platform. On March 1, 2024, Ms. Patel converted to full-time employment with Northstar in the position of Software Engineer II. She has held that position continuously since that date.

Ms. Patel's current annual base salary is \$132,000, paid semi-monthly, and she is eligible for Northstar's standard benefits program, including health, dental and vision coverage and a 401(k) with company match. Her primary work location is our Atlanta headquarters at the address above. Her position requires at minimum a bachelor's degree in computer science or a closely related field, and her duties include designing and implementing backend services for our analytics platform, maintaining data pipelines, and participating in design and code review.

Northstar intends to continue employing Ms. Patel in this role for the duration of the approved H-1B petition. Please do not hesitate to contact our People Operations team at the number above should you require any further information.

Sincerely,

Renata Voss

Renata Voss
Director of People Operations
Northstar Systems LLC
